

The City School

North Nazimabad Boys Campus

- Test on Monday 1st ,March 2015

H.W Work:

Look at the diagram on the right.

- a) What is the *name* given to force A?

.....

- b) What is the *name* given to force B?

.....

- c) What is the *name* given to point X?

- d) What is the *size* of the *load*?

- e) What is the *distance* between the load and the pivot?

- f) What is the *moment* of the load? (i.e. force \times distance from pivot)

- g) If the moments from forces A and B are to balance, what must be the *moment* of the *effort*?

- h) What *size* must the effort be to *lift* the load?

.....

Mark on each diagram where the *loads*, *efforts* and *pivots* are. The first has been done for you as an example.
